# **APS 330 Public Disclosure**

Capital Adequacy and Credit Risk Exposure as at 31 March 2022

## 1. Capital Adequacy

The Credit Union's lead regulator, APRA, sets and monitors minimum capital requirements based on an Internal Capital Adequacy Assessment Process (ICAAP) prepared by the Credit Union, which sets a targeted capital range based on risk analysis and capital allocation for identified risk categories.

In implementing current capital requirements, APRA requires the Credit Union to maintain a prescribed capital adequacy ratio. The Credit Union has complied with all APRA capital adequacy requirements throughout the period.

The Credit Union maintains capital through the appropriation of retained earnings to general reserves. No other capital instruments are utilised.

The Credit Union has adopted a standardised approach to the calculation of the capital adequacy ratio in accordance with the Basel III capital framework.

There have been no material changes in the Credit Union's management of capital during the period.

### 1.1 Capital

### 1.1 Capital (as at 31 March 2022)

Common Equity Tier 1 Capital	<b>\$</b> '000
Retained and current year's earnings	109,074
Other reserves	703
Common Equity Tier 1 capital before regulatory adjustments	110,961
