Target Market

a) Product description (including key attributes)

Members in the target market for these products are members (current or future) who want to finance the acquisition of a property for residential or investment purposes, or refinance other finance that has been provided for that purpose, and who want a loan that has the key product attributes listed below:

Package Product	
Owner Occupied	Investment

-	Repayments Principal & Interest or IO up to 5 years. Loans with IO repayment options are capped at 80% LVR.

b) The likely objectives, financial situation and needs of members in the target market for these products are that they:

- Need funds to finance the purchase of a residential or investment property or refinance other finance that has been provided for such a purpose
- Want the certainty of a fixed interest rate and fixed repayments
- Meet Credit Union SAs lending criteria
- May have already owned real property and obtained a home loan or may be buying a property and obtaining a home loan for the first time. Members will therefore have differing levels of knowledge and experience with home loans including, potentially, very little or no such experience.

c) These products have not been designed for members who:

- Want a variable interest rate
- Do not meet Credit Union SAs lending criteria
- Think there is a material possibility that they may want, or need, to repay the loan early (for example, if they sell the mortgaged property), or make substantial repayments, during a fixed rate period
- Are seeking an offset account linked to their fixed home loan.
