Quick help guide

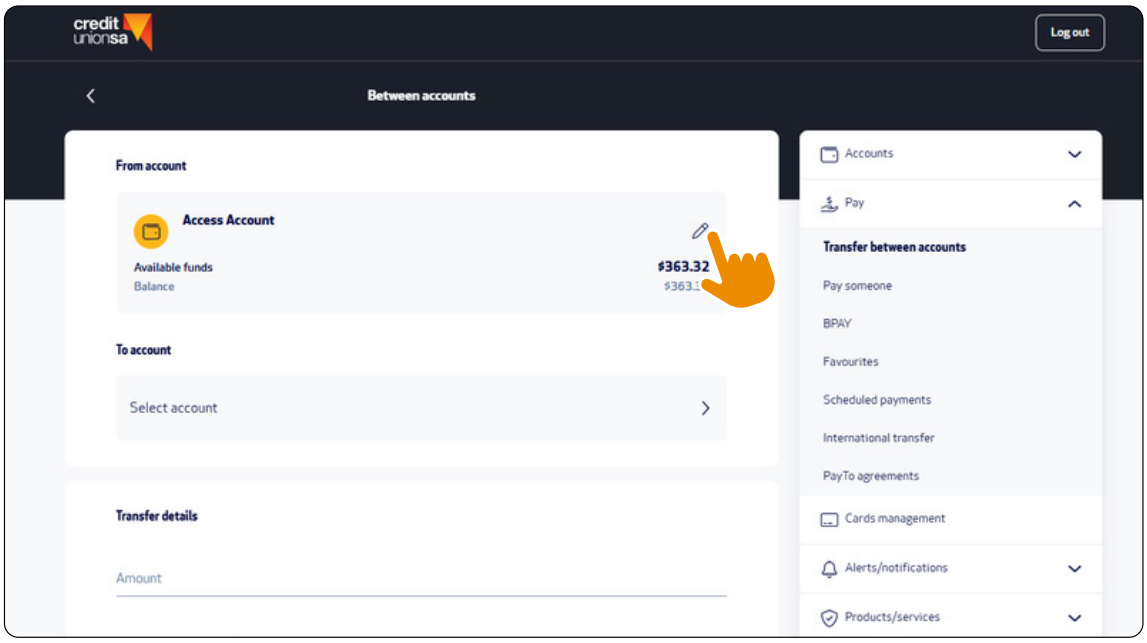

Money Transfer between accounts in Internet Banking

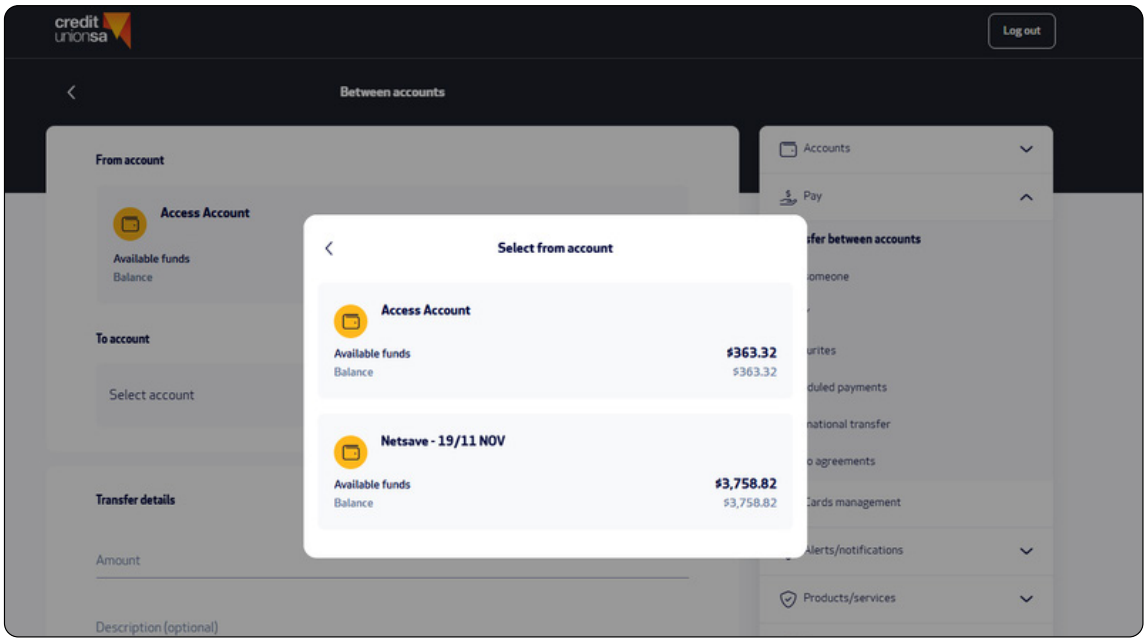

1. Click **Pay** in the right-hand menu
2. Click **Transfer between accounts**

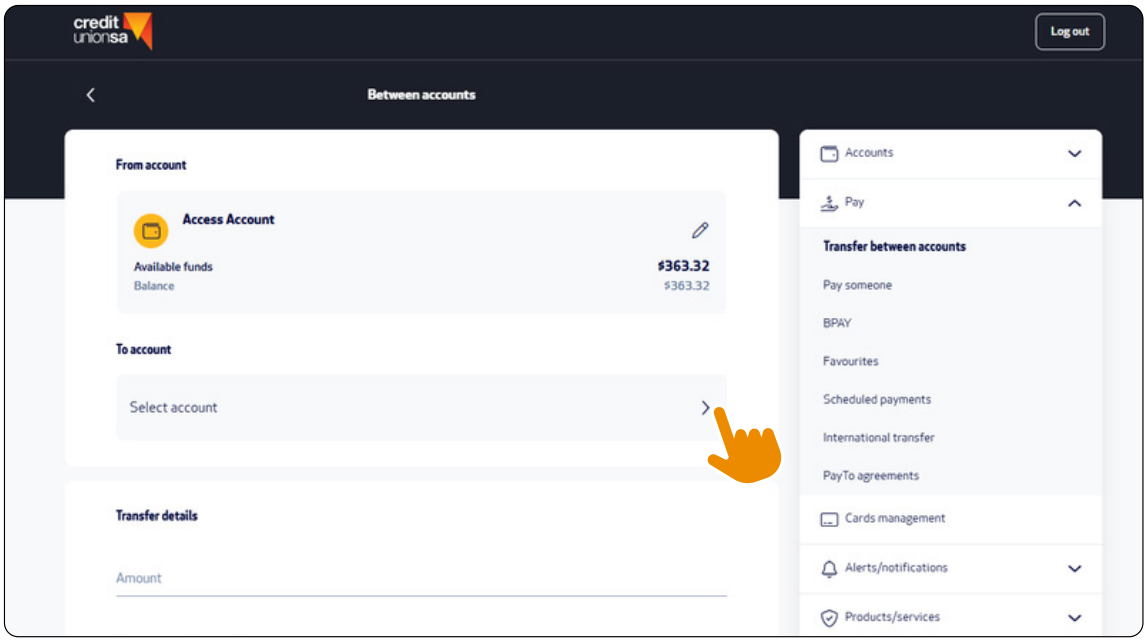

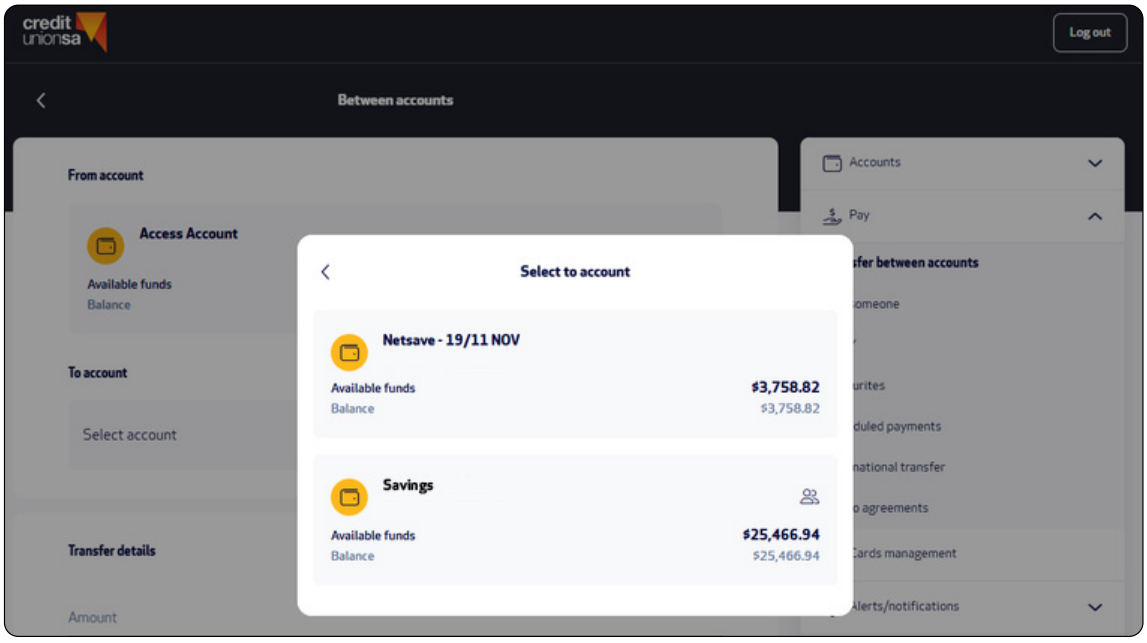

3. To choose which account the money will come from, click the pencil icon (✎) underneath **From account**
4. A list of your accounts will appear. Select the account you want to transfer money from by tapping the account name.

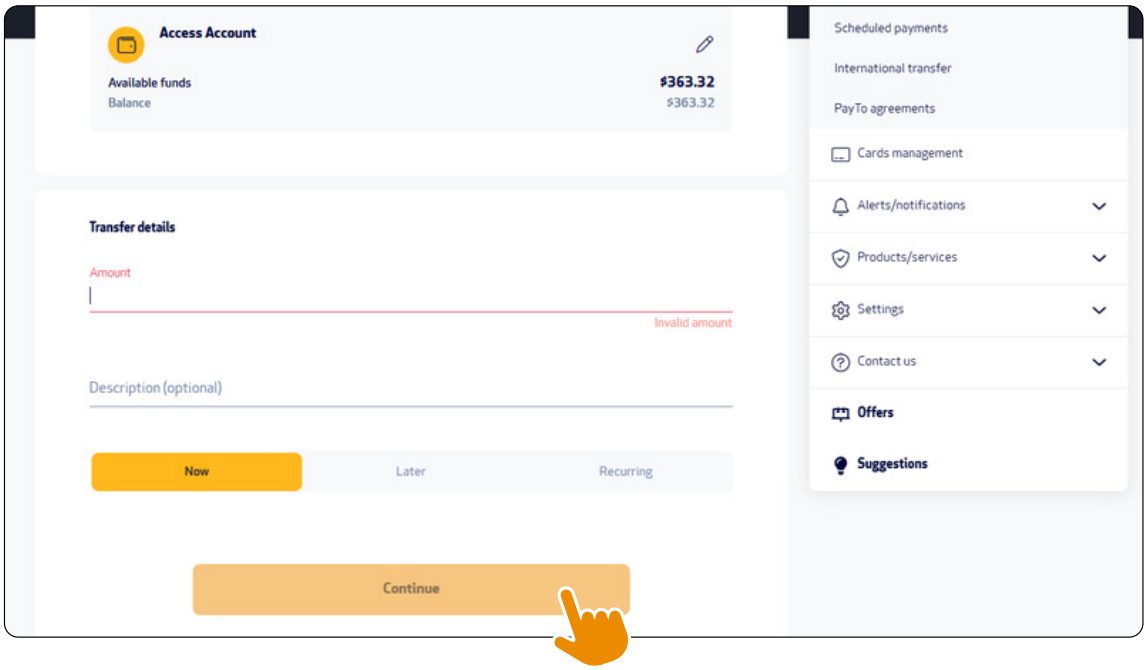

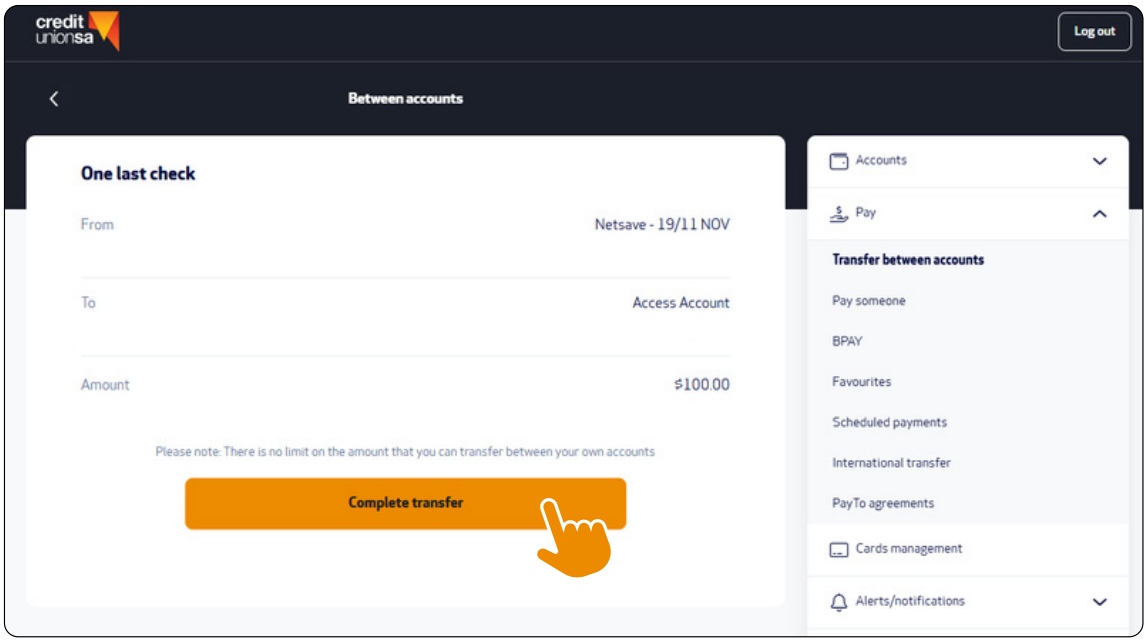

5. Next, choose the account you would like the money transferred into.
   Under **To account**, click the arrow (›) next to the **Select Account** button and choose your account from the list.
6. All accounts will be displayed. Select the account you'd like the funds transferred into.

7. Fill in the transfer details > click **Continue**
8. Review the details you've entered to ensure they're correct, then click **Complete transfer**

9. Your transfer is now complete. You can return to the dashboard, make another transfer, or exit Internet Banking.
