Quick help guide

Money Transfer between accounts in our Mobile Banking App

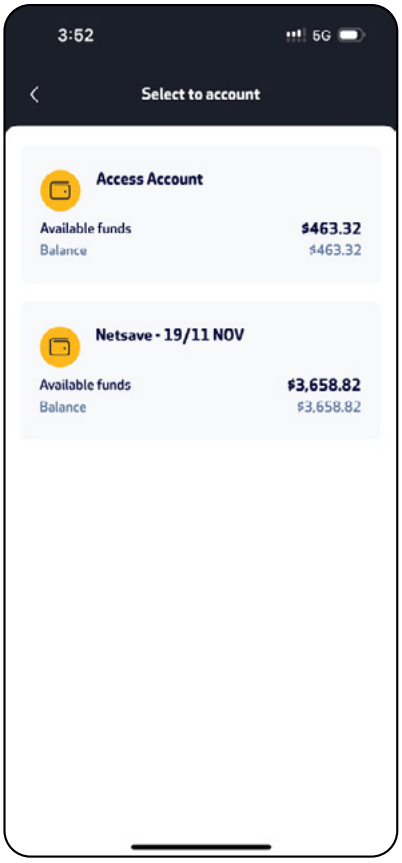

1. Tap the **menu button** (≡) located in the top-right corner.
2. Tap **Pay**
3. Tap **Transfer between accounts**

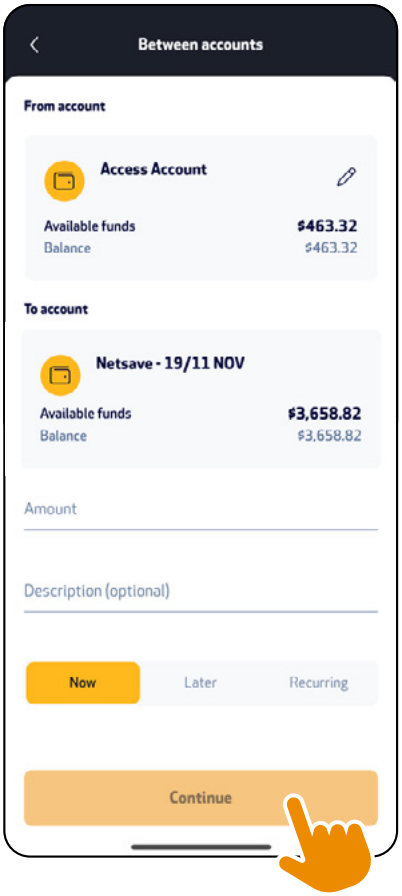

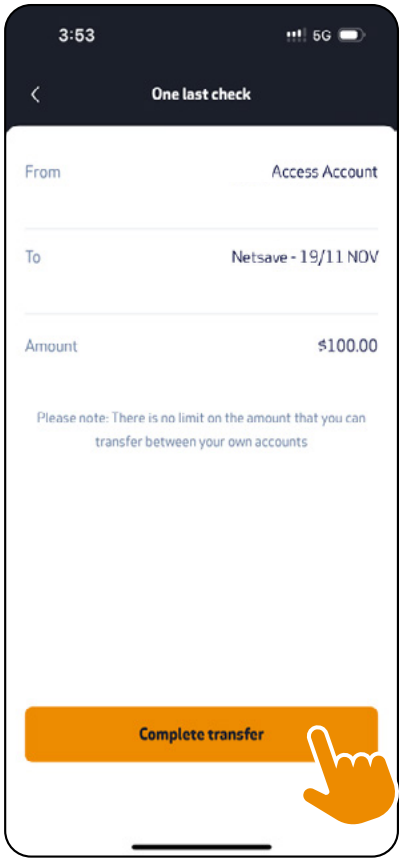

4. To choose which account the money will come from, tap the pencil icon (✎) underneath **From account**
5. A list of your accounts will appear. Select the account you want to transfer money from by tapping the account name.
6. Next, choose the account you would like the money transferred into. Under **To account**, tap the arrow (›) underneath **Select Account** and choose your account from the list.

7. All accounts will be displayed. Select the account you'd like the funds transferred into.
8. Fill in the transfer details > tap **Continue**
9. Review the details you've entered to ensure they're correct, then tap **Complete transfer**

10. Your transfer is now complete. You can return to the dashboard, make another transfer, or exit the app.
